

# Security

At FSG Wealth Advisors, LLC, we go to great lengths, both procedurally and electronically, to ensure our clients have a secure environment in which to interact with us. Employees are required to sign a Confidentiality Agreement and vendors, such as an information technology consultant, must enter in to a Non-disclosure Agreement. Furthermore, we have policies and procedures to protect our clients' nonpublic personal information at all times. Please see our Privacy Notice for more information on the policies and procedures we have implemented to safeguard your nonpublic personal information.
